

SA REAL ESTATE SECURITIES FUND

Investor

As of 3/31/2022

The Fund's goal is to achieve long-term capital appreciation. The Fund pursues its goal by generally investing in readily marketable equity securities of companies the principal activities of which include ownership, management, development, construction or sale of residential, commercial or industrial real estate. Investments will include, principally, equity securities of companies in the following sectors of the real estate industry: certain real estate investment trusts ("REITs"), companies engaged in residential construction and firms, excluding partnerships, the principal business of which is to develop commercial property. The Fund generally considers a company to be principally engaged in the real estate industry if the company: derives at least 50% of its revenue or profits from the ownership, management, development, construction or sale of residential, commercial, industrial or other real estate; has at least 50% of the value of its assets invested in residential, commercial, industrial or other real estate; or is organized as a REIT or REIT-like entity. REIT or REIT-like entities are types of real estate companies that pool investors' funds for investment primarily in income producing real estate or real estate related loans or interests. The Fund will make equity investments in securities listed on a securities exchange in the United States that is deemed appropriate by the Sub-Adviser.
